

SAFETY SENSORS SCA1020

MAGNETIC SAFETY SENSOR

These safety sensors are accessories for Solfas test systems or safety control units. They are used for the monitoring of safety doors. Installation is very easy due to the attached cable with M8 connector.

TECHNICAL SPECIFICATIONS

Connector	M8 plug 4-pole IEC 61076-2-104
Cable	Diameter 4.3mm Length 10m
Voltage	24VDC
Dimensions (HxD)mm	37x18 mm
Weight	346 g
Product	Order Number
Sensor switching distance 3mm	SCA1020-3
Sensor switching distance 10mm	SCA1020-10

KEY FEATURES

- Magnetic Safety door sensor
- 2 NO Contacts
- Easy mounting
- Switching distance 3mm or 10mm
- 10m cable with M8 plug
- According to EN50191
